

The Official Medical Advisor of Mighty Rovers Kenya 2006

Quality HealthCare is proud to become the official medical advisor for “Mighty Rovers Kenya 2006.” The event will set off for Kenya in August 2006, and participants will have an extraordinary experience of summit-climbing and revamping a local school. Donations to the event will be used for constructing an extension for a local school in Kenya, and also supporting various relief aids of World Vision Hong Kong. We thank you for your full support in order to participate in such a meaningful event.
